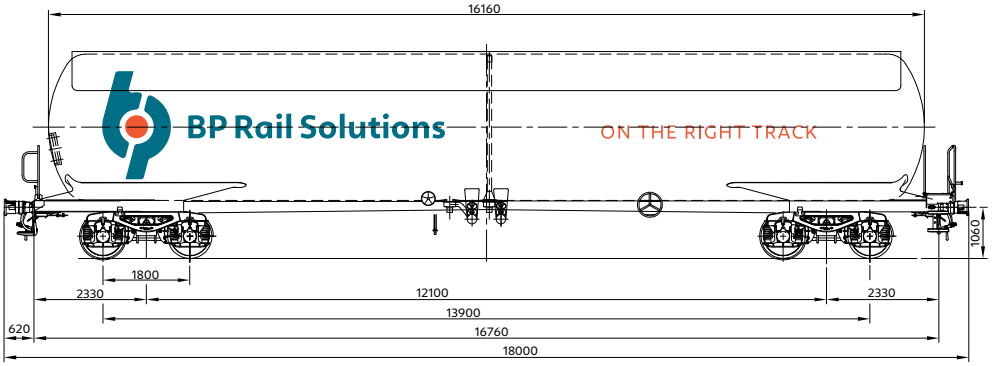
BP Rail Solutions
LPG G25.113D

The LPG G25.113D series wagon is optimized for transporting liquefied petroleum gas (LPG). The lower valves work hydraulically in the gas and liquid phases. Charging/discharging can be accelerated by installing quick couplings.


Nominal volume:	Approx. 113 m^3
Tare weight:	31,9 t
Axle load:	22,5 t
Total lenght:	18000 mm
Clearance - outer wheelsets:	12100 mm
Design temperature:	-40/+50°C
